About Me

I design user interfaces that emphasize clarity, usability, and performance—always rooted in real user needs. With a background spanning UX design and front-end development, I use AI to carry products from concept through to production code.

Education & Certificates

Nielsen Norman Group 2021
UX Certification

Cascadia College 2012
AAS, Web Application Programming Technology

Experience

- Mylio** 11+ yrs
- AI Product Designer & Developer** Nov 2025 - Present
 - Own the UI/UX design and front-end implementation for a ground-up rebuild of Mylio's desktop application.
 - Design and ship a modernized UI/UX, rebuilding interaction patterns and visual polish for a clearer, more functional experience.
 - Maintain feature parity throughout the rebuild, validating that core capabilities carry over intact.
 - Develop production code with Claude AI, delivering directly to the main release branch.
- Senior UI/UX Designer** Feb 2018 - Nov 2025
 - Led the full design process from research to final handoff.
 - Created user flows, wireframes, prototypes, and high-fidelity designs.
 - Maintained and evolved design systems and UI standards.
 - Optimized user journeys using data and feedback, applying accessibility and responsive design best practices.
 - Mentored junior designers.
- Front-End Developer** Feb 2015 - Feb 2018
 - Built custom WordPress themes and plugins, adding automation to streamline content workflows.
 - Implemented Google Analytics and UTM tracking, and resolved layout and cross-browser performance issues.
 - Managed domain setup, transfers, and hosting environments, partnering with back-end teams on integration.
 - Produced HTML and MailChimp email templates, plus banners, icons, and UI mockups for campaigns.
- Minapsys** 1 yr 6 mo
- UI/UX Designer** Aug 2013 - Jan 2015

Led front-end development and UI/UX design, establishing the overall creative direction.
- ZenDiv.com** 1 yr 5 mo
- Owner (Front-End Developer)** Mar 2012 - Jul 2013
- Digital-Storytime.com** 6 mo
- Intern Web Programmer, App Dev** Apr 2011 - Sep 2011
